

Where is Pippin?

Can you tell where Pippin is at camp? Here are some hints!

- 1) This can be a hard place to *escape* from.
- 2) In summer it likely smells pretty yummy here!
- 3) Some afternoons all of camp meets here to spend time together.

Look for the answer later in the issue!

Funny Stuff

- Q. What do you call a dog that can do magic?
- A. A labracadabrador!
- Q. What did the buffalo say to his son when he dropped him off at camp?
- A. Bison!
- Q. What do you call a smelly fairy?
- A. Stinkerbell!
- Q. What kind of shorts do clouds have?
- A. Thunder-wear!

Washing Our Hands

We know that washing our hands helps keep us healthy, but why? Here is a simple experiment to see why hand washing is so important!

For this experiment you will need;

- A bowl
- Water
- Pepper
- Dish Soap

Fill the bowl with water. For our experiment, the pepper will be the germs. Sprinkle the pepper germs over the water, so that the whole top is covered. Now stick one finger in the bowl and pull it out.

You will see that your finger is covered in the pepper germs! Don't touch your face or these germs might get in your mouth or nose and get inside of your body!

Now wipe your finger off, so there are no more pepper germs.

Dip your finger in the dish soap. Now put your finger back in the bowl. Look at those germs run away! When we wash our hands really well, it helps make sure real germs stay away too!

Can you find 12 blue Camp Kindle mugs?

Make Some Kindle Bug Cookies!

What is better than spending time together making something? And when the end result is delicious, it is twice as grand. Enjoy making Kindle Bug cookies that taste like the ones from our kitchen at camp.

Ingredients

- 1 1/2 cups butter, softened
- 2 cups white sugar
- 4 eggs
- 1 teaspoon vanilla
- 5 cups flour
- 2 teaspoons baking powder
- 1 teaspoon salt

1. In a bowl, cream butter and sugar until smooth. Beat in eggs and vanilla. Stir in the flour, baking powder and salt. Once combined, make the dough into a ball and cover and refrigerate for at least 1 hour or overnight.
2. Preheat oven to 400 degrees F. Roll out the dough on a floured surface 1/4-1/2 inch thick. Cut into shapes with a cookie cutter or a heart cookie cutter for Kindle Bugs. Place cookies 1 inch apart on ungreased cookie sheets.
3. Bake 6 to 8 minutes in preheated oven. Let cool and decorate as you'd like!

Icing

- 3/4 cup of icing sugar
 - 1/4 teaspoon vanilla
 - Few drops of food colouring
 - 1 tablespoon room temperature water
 - Pinch of salt
 - 1/2 teaspoon light corn syrup for shiny icing (optional)
- Mix all together and decorated cooled cookies

On warm summer nights, we gather around the crackling campfire and sing, sing, sing! This song is the last song at almost every campfire. Can you remember the actions?

Peace

I've got peace like a river
I've got peace like a river
I've got peace like a river in
my soul, in my soul

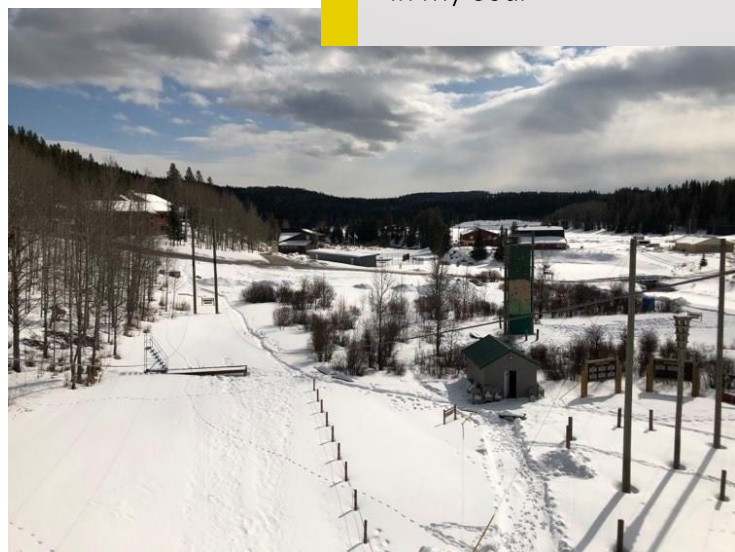

I've got joy like a fountain
I've got joy like a fountain
I've got joy like a fountain in
my soul, in my soul

I've got love like the ocean
I've got love like the ocean
I've got love like the ocean in
my soul, in my soul

I've got peace like a river
I've got joy like a fountain
I've got love like the ocean
In my soul

Camp Last Week!

Bet you are not used to seeing so much snow at camp! And where is the sun? All those trees are looking like they miss their leaves. Watch to see how things look next week.

Riddle me this...

1. You answer me, although I never ask you questions. What am I?
2. What word is always pronounced wrong?
3. Noelani is outside a shop. She can't read the signs, but she knows she needs to go in to make a purchase. What store is she at?
4. What's full of holes but still holds water?
5. What has one head, four legs and one foot?

Where was Pippin?

Pippin was at Remington Barn!

This is where we meet for ACHO (All Camp Hang Out), where our escape rooms are and where we have our big Friday barbeques!

Meeko is off choosing a spot to hide for you to guess next week!

Fun and Slimy Science

Here is a cool slime you can make and play with over and over. Keep in mind that red food coloring can stain so another colour might be best.

WHAT YOU NEED

- Airtight container
- Food coloring
- Tape
- Tablespoon
- Spatula
- ½ (120ml) cup shampoo
- Warm water
- Large mixing bowl
- 4 cups (500g) cornstarch
- Wax paper

1 Tape a sheet of wax paper to your work surface. Pour a generous amount of food coloring into the large mixing bowl. Then add the shampoo. Notice how slowly the shampoo flows – the technical term for this gloopy behavior is viscosity.

2 Add the cornstarch to the mixing bowl and stir the contents with the spatula. This is hard at the start because there's a lot of powder and not much liquid. Don't worry: more liquid is going in.

3 Add a few tablespoonfuls of warm water. Keep stirring to mix the water into the cornstarch. The water makes starch (a substance in the cornstarch) expand, forming a network that holds the water and cornstarch together in a slimy mixture.

4 Gradually, your mixture will turn into a thick paste. Pick it up and knead it with your hands — it will become really gloopy! But if you thump or squeeze the slime, its viscosity increases enormously and it becomes hard, like a solid.

5 Now go for it! Squash, punch, or slam your slime on the table to make it turn solid. Whenever you stop, it will turn into a liquid again. If you want to keep the slime, pour it into an airtight container while it's runny. That way it won't dry out and you can use it for about a month.

Riddle Answers

1. Telephone or doorbell
2. The word wrong
3. Eyeglasses store
4. Sponge
5. A bed
