Birds in your Yard!

There are lots of birds out singing. Make this easy bird feeder and watch them come and visit for snack time!

You will need

- 2/3 cup of boiling water
- 2 packets of gelatin
- 2 cups of bird seed
- Wax paper
- Cookie cutters
- Twine or string
- Straws cut into 2-inch pieces

Carefully pour the water into a mixing bowl. Add the gelatin and stir until it's fully dissolved. Add the bird seed and mix well.

Place cookie cutters onto a wax paper-lined tray and scoop seed mixture in until heaping full. Place another piece of wax paper on top of the cookie cutters and press down firmly to pack in all the seeds. Remove the top paper and gently poke straw pieces all the way through the seed shapes (not too close to the edges). Place the tray into the fridge for a couple of hours then let it sit on the counter to dry out. A few hours later, flip the cookie cutters over to let the bottoms dry out too. Let it sit overnight until the feeders are completely dry. Remove the seed shapes from the cutters (they should be fully dry and hard to the touch). Remove the straws and tie a twine loop through the holes and hang in a tree. How many different types of birds will stop by to say hi?

Where are Pippin and Meeko?

They are at Paddon's Pool! Doesn't look like it would be a very warm swim today! Where will the dogs be next week? They are already off looking for a spot!
